CTE Submission: About

INTRODUCTION

NJ SMART introduced the Career and Technical Education (CTE) Submission in the 2009-2010 School Year. The CTE Submission collects data elements that provide a more comprehensive picture of students enrolled in CTE programs. The collection of this data at the student level allows for improved data quality and capacity for CTE administrators and stakeholders. **The CTE Submission is required for all Local Education Agencies (LEAs) that have a Career and Technical Education program.**

For the most up to date versions of the CTE Submission Handbook, supplemental resources, and file templates, please see the Documents for Download section of the NJ SMART Resources & Trainings page.

UPDATES TO CTE SUBMISSION

2023-2024 School Year:
- The Perkins Performance Report for the Special Population Subgroups was released for LEAs with currently approved CTE Programs to view 2022-2023 and future years' CTE data for the Special Population Subgroups, which includes district level secondary performance indicators by special population subgroups. This report can be accessed via the Reporting tab under CTE Reports. For additional information, please review the Perkins Performance Report for Special Population Subgroups Click by Click.

2021-2022 School Year:
- Several updates were made to the Perkins Performance Report to improve how LEAs can view and use the data within the report. Please review the Perkins Performance Report Click by Click for additional details on these updates.

2020-2021 School Year:
- The Perkins Performance Report was released for LEAs with currently approved CTE Programs to view 2019-2020 and future years' CTE data by CIP Code, including district enrollment, school and program enrollment, and secondary performance indicators. This report can be accessed via the Reporting tab under CTE Reports.

For historical updates to the CTE Submission, please consult the Revision History of the CTE Submission Data Handbook.
