

Staff Submission

Staff Submission: About

INTRODUCTION

Staff Submission collects staff level data elements that build upon data captured in SMID Management to build a more comprehensive picture of a staff member and his/ her credentials in an administrative or teaching role. The Staff Submission is reported to the NJDOE at the deadline of Official reporting periods. LEAs are expected to be aware of and in compliance with their respective reporting responsibilities for the Staff Submission.

The Staff Submission Handbook and other resources are available on the Documents for Downloads section of the [NJ SMART Resources & Trainings](#) page to assist users.

UPDATES TO THE STAFF SUBMISSION

As of August 2022, the Staff Submission is no longer being collected as its own submission. The data that has historically been collected within the Staff Submission is now being captured in SMID Management.

For historical updates to SMID Management and the Staff Submission, please consult the Revision History of the SMID Management Handbook.

KEY DATES AND DEADLINES

Please refer to the [NJ SMART Timeline](#) for important dates and deadlines for the Staff Submission.

TRAINING INFORMATION
